## Personal Statement

I am a pharmaceutical technologist by profession, a leader by passion. I enjoy caring for people and helping them back on their feet. Detail oriented and fueled by the need to excel as team. A motivated motivator, and a lifelong learner. I am a health scientist and software engineer by passion and aspiring to bring healthcare services to the majority through UHC using affordable and readily available technology. I am the achiever and excellence and professionalism is what I move for.
